

7 - ISLAND DIPLOMACY

1990

By Paul Bennett : 118 High Northgate, Darlington. DL1 1NR.

- 1) The 1971 Rule Book applies except where amended below.
- 2) Iceland (Ice) , Ireland (Ire) , Corsica (Cor) , Sardinia (Sar) , Sicily (Sic) , Crete (Cre) and Cyprus (Cyp) all become NEUTRAL supply centres.
- 3) Iceland joins NAO and NWG.
Ireland joins NAO and IRI.
Corsica joins GOL , TYS and Sar.
Sardinia joins GOL , Cor , TYS and WMS.
Sicily joins TYS , Nap , ION.
Crete joins ION , AEG and EMS.
Cyprus joins EMS.
- 4) All references to 34 supply centres should now be adjusted to 41 supply centres and the VICTORY condition should be the control of 21 supply centres.

Notes:

The initial scramble for neutral supply centres is much more balanced, no power should lose out in 1901.

It is a matter of opinion on whether the last statement is correct. It has been suggested that by combining the "WINTER 1900" (rs35) variant, where there is an extra season for players to choose what type of units to start the game with, will produce a more evenly balanced game. If anyone decides to run this variant then the variant bank will appreciate endgame statements on its playability.
