

1. The rules are the same as those in the 1971 Diplomacy Rulebook, except as noted below.

2. The Powers and starting positions are:

AUSTRIA: Armies: Vienna, Budapest, Florida
Fleets: Trieste, Hawaii

CHINA: Armies: Peking, Sian, Wuhan
Fleet: Amoy

ENGLAND: Armies: Ecuador, Nigeria, Malaya
Fleets: London, Edinburgh

FRANCE: Armies: Paris, Toulon, Quebec, Dakar
Fleet: Bordeaux

NETHERLANDS: Armies: Antwerp, Surinam, Angola, Goa
Fleet: Hague

OTTOMAN: Armies: Izmir, Jerusalem, Baghdad, Brazil
Fleet: Istanbul

PORTUGAL: Armies: Lagos, Alaska, Cape Colony
Fleets: Lisbon, Melbourne

RUSSIA: Armies: Moscow, Omsk, Kiev
Fleets: St. Petersburg (sc), Tahiti, Vladivostok

SPAIN: Armies: Madrid, Mexico, Somalia
Fleets: Valencia, Manila

3. Note that the provinces on the easternmost edge of the map are same as those on the westernmost edge. Thus, a Fleet could move from Bismarck Sea to South Pacific to Peru, and vice versa.

4. Those islands which are marked as "neutral supply Centers" as well as "Island Colonies" may be occupied by an Army. An Army dislodged from an island may retreat to another island or Mainland Province via Fleet Convoy provided there is a Fleet available to make the convoy and that the Convoy Retreat does not exceed one sea-space. The retreating Army and the convoying Fleet must be of the same nationality.

This rule applies ONLY to Armies dislodged from island centers. For the purposes of this rule, the islands of Britain and Australia are considered to be "mainlands".

5. There are certain supply centers marked as "colonies". Colonies are building centers for whichever Power controls them. They start under the control of the Power with starting units placed there. The colonies are: Alaska, Quebec, Florida, Mexico, Ecuador, Surinam, Brazil, Dakar, Nigeria, Angola, Cape Colony, Somalia, Malaya, Goa, Manila, Hawaii, Melbourne and Tahiti.

6. There are three "special supply Centers" which may be used for building purposes by specified Powers. The centers and Powers are: CRIMEA: Russia and Ottoman; NAPLES: Austria and Spain; CANTON: China. The centers may be used for building only after being occupied. For all other Powers, these centers function as "neutral Supply Centers".
7. The ARCTIC OCEAN and the continent of ANTARCTICA are IMPASSABLE.
8. The Arctic Coast of Siberia is passable to Fleets
9. A victory shall consist of ownership of Fifty (50) supply centers or by concession vote. In order for a concession proposal to be approved, the proposal must carry by a Three-Fourths ($3/4$) Majority of all supply centers, excluding supply centers which are neutral or owned by a Power in Civil Disorder. Thus, with all supply centers occupied, Powers controlling Ninety-Nine (99) centers can end the game by voting to do so.
