

This scrap of paper is infact a full issue of Pendulum N<sup>o</sup> 461 (oh the shame, how will I live it down?). What might you ask has brought the famous P to this lowly standard? Well this is the ~~excuse~~ reasons...

Richard Donaldson has just spent the last week with us, and during this time never had the inclination to start typing stencils. Today is Wednesday and some relations have arrived from America, and tonight we're all off to a party over Newquay to celebrate my neices 18th birthday. So I'm grabbing a couple of hours in which to produce this merger excuse for the best Dipzine in the country. I recon I give you very good turn around times (mind you it did drop over the last year to about 3 1/4 weeks per issue) so you regular readers can't complain about this one. My only regret is the new readers, starting with this new game, I don't want them to get a wrong impression of P so they get a complimentary issue 45 free.

Chris: Sorry you didn't get ToTS or Gummiballs but I hope you'll be happy in P. Can everyone send me £1.90p game fee and deposit which I'll send on to our Treasurer plus my 60p Gf cut plus (if you don't already sub to P) £2 subscription. Jesus that sounds a lot! My initial subs are high but they are the only sub you pay as long as you play in P (lifetime subscription). I welcome the three new players with open arms, and welcome back 2 players, and just when will I get rid of you other bums? (only kidding)

~~Orders by the next deadline if you can, if not by the next after that~~ (please send money with first orders). I hope you all have an enjoyable game and come out of it with lots of blood on your daggers.

GAMES Orders alone I'm afraid, better that than a promise of both in x weeks time.

French reserves arrive on battlefield (left of centre)
